

SUSTAINABILITY POLICY

Beton Bauen Ltd believes the construction industry is responsible for playing a lead role in reserving the present and creating a sustainable future. This policy governs how we as a responsible company set out to achieve this.

Beton Bauen Ltd undertakes to:

- ▶ Reduce environmental impact wherever possible, using best practice methods and standards
- ▶ Achieve and maintain high levels of sustainable working that enhances our reputation and those of our customers and stakeholders
- ▶ Ensure compliance to all regulations and statutory bodies with regards the environment and sustainability
- ▶ Collaborate within partnerships and supply chains and seek to embed “sustainable thinking” across activities throughout
- ▶ Maintain continual improvement through measurement against policy and performance, evaluation, review, training and procedural change where required
- ▶ Invest in our employees through programmes of best-practice employment, offering training opportunities, rewards, and fair contractual arrangements that mutually benefit both employer and employee
- ▶ Reduce, reuse and recycle wherever practicable
- ▶ Source recycled materials or other materials from sustainable sources
- ▶ Seek to reduce carbon emissions, water consumption and energy use across our operations and those within supply chains and partnerships
- ▶ Reduce any adverse impacts on the communities our operations affect, while simultaneously seek to source locally to aid local economies
- ▶ Engage local communities through education, project liaison, and support them through charitable work, sponsorship and other support initiatives
- ▶ Meet our clients' requirements and meet or exceed their expectations
- ▶ Communicate this policy to our employees, stakeholders, and all interested parties
