

Concrete Training Day Back to Basics

Wednesday 30th April 2025 at 9.00am

The Wales Region Concrete Training Day provides an introduction to the concrete supply process from basic materials to site practice

The Training Day offers an extremely cost effective opportunity to provide basic training to meet the needs of many individuals and staff. Our past Concrete Training Days have proved to be enormously popular and of particular interest and benefit to graduates, recent entrants to the industry and in particular, support personnel wishing to gain an insight into the whole concrete supply chain.

The Training Day is a full day event comprising two half-day sessions. This year the technical presentations and practical demonstrations will take place at Beton Bauen head office in Caerphilly. The topics include:

- **Binders**
- **Aggregates**
- **Admixtures**
- **New Standards**
- **Batching and Mixing**
- **Transport, Placing, Compaction and Finishing**
- **Fresh and Hardened Concrete Testing**

Places are limited to 25 delegates by the available laboratory space and to enable the maximum participation.

- Places will be assigned on a first come basis – an invoice will be issued on receipt of booking form and pre-payment will be required.
- Unfortunately, we will not be able to refund if places are not taken up. (Delegate names may be changed at any time at no cost).
- A detailed programme and location plan will be provided subsequent to booking.
- A buffet lunch will be provided
- **Concrete Society members & employees of member companies can book places at the discounted price of £85.00 + VAT per person**
- **For non-members the ticket price is £95.00 + VAT**
